

in the re-enactment.

5. New business

- a. Chapters for a new book on local legend, lore and personal stories need to be submitted by January.
- b. The new hats are in and are being sold for \$15 each.
- c. Nothing on post cards.
- d. Volunteers are needed to man the museum for the next 3 weekends. The Key has been moved and the volunteers will be told where to find it. The combination lock-box has not arrived yet, but when it comes it was decided it should be placed around the corner and not too high.
- e. Route 66-hetty reported that the village crew has finished removing the heavier contents and everything is being stored at the village garage. Moving should begin on 8/19. Both lean-tos will be removed with one being placed by the grill at the pavilion. Locks have all been changed and a Key will be available. We should be able to put things back into the buildings after Labor Day.
- f. The Farmers' Market is slower than last year. The osprey contest is popular. We need to find out the last date of the market for the drawing.
